FACES OF THE COMMUNITY: A GUIDE

In March 2019, the Marlene Meyerson JCC Manhattan, under the creative direction of Jennifer Deppe Parker, embarked on an interior decor project designed to depict the diversity and breadth of the JCC community. The resulting portraits appear throughout our building (in the locations indicated below) accompanied by codes that allow you to listen to excerpts of audio interviews with the subjects. While most cell phones can capture these codes with their cameras, you may need to install a QR reader application to hear the excerpts. For more about the project, visit jccmanhattan.org/faces.
